functionality

It optimizes the cash payments, disposing of the queues at the cash desk, thanks to quantity acceptance system of coins and issuing automatically the change. The automatic cash handling machine eliminates the manual cash counting in opening and closing operations and at shift change.

It Safely holds the cash thanks to the solid steel case and the option to fix it reducing the risk of thefts and robberies.

It is equipped with an ups which allows to complete each transaction even in the event of a power supply blackout.

It is managed by a single driver. Safe Money PRO can be easily built into any workbench, thanks to its compact size and simple design, without making any changes.

L 37cm x P 33.7cm x H 63.8 cm

Unit of measure: cm 1 mm

The measurements refer only to the metal cabinet, useful for mounting operations. For a correct installation of the product we advise to follow the instructions contained in the "installation guide"
